

# American Pomeranian Club

## *2023 President's Goals and Directives*

- Increase Member/Committee Participation, we need the right people in the right committee chair positions. It has to be the right fit in order for the person to want to "own" that committee and the responsibilities of it.
- Training on Leadership and Development within the Club/Committee Chairs. Planning for the strong future of the American Pomeranian Club.
- Build a stronger education program within our breed. Encourage and assist regional clubs in developing educational programs.
- Re vamp mentoring program. Encourage more mentoring within our breed.
- Increase Public Awareness via Marketing
- Annual Mid-Year Event Fund Raiser that we can use towards a community service project or a special charity.
- Continue to improve our National, increase entries and member participation.

I would like to see APC members interact more, not only with the club but also within each of our communities in order to give voices to responsible preservation breeders. We need to change the narrative that the animal right activists are spreading.

Respectfully,  
*Cathy M. Driggers*  
President  
American Pomeranian Club
