

American Pomeranian Club

President's Message March 2023

I am very excited to see everyone at Nationals again this year. We have several new people in various positions. As we all know, when you take on a new position, it can take a little bit to acclimate to the position, to figure out what works best and how to make the role a true success.

I need everyone's help in making this a smooth transition, not only for me but for all those committee chairpersons who have stepped up to do a job they haven't done before. This includes our new Board Members as well. I hope you all will give your support where needed. We must remember that we are all in this because we love our Pomeranians, the breed and the sport.

If you have not found your area in APC and are interested in helping with something, please come find me or reach out to me via text, email or messenger. I would love to talk with you and see what you might be interested in. There is a space for everyone who is willing to help out with the American Pomeranian Club.

I look forward to working with everyone throughout the year. Let's make this an amazing National Specialty and 2023 the best year yet!

Respectfully,

Cathy M. Driggers

President
American Pomeranian Club
